Swimsuits Rules 2011

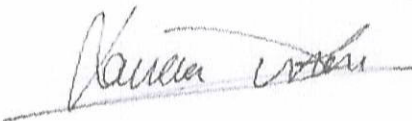

Until end of year 2010, in swimming pool, only the old generation suits are allowed. In order to prevent misunderstandings, all suits using neoprene, plastic rubber or any other material are considered as new generation.

The CMAS commission of finswimming at its meeting of May 15th, 2010 proposed to the BOD to modify rules CMAS of suits and asked to produce specific material for the finswimming (contract with companies) and with the logo of the CMAS because the commission can't accept to follow rules FINA and to see swimmers in championships CMAS carrying suits with logo FINA.

During the meeting of the BOD of the February 18th and 19th 2011, the work group made composed of the Vice President, Ivan Nyíri, the General Secretary, Alessandro Zerbi, Mr. Ilias Xiarchos and Mrs. Natalia Grechikhina decided to evaluate, to study in detail the commercial proposition of the different companies before the BOD votes a definite decision at one subsequent meeting.

Until new order, the rules will be the same that in 2010.

March 4th 2011

Xavier Duran

President of CMAS Sport Committee
